549 & 551 Broadway, New York. Prospectus for 1874-Seventh Year. The Aldine, An Illustrated Monthly Journal, universally admitted to be the Handsomest Periodical in the World. A Representative and Champion of American Taste. Not for Sale in Book or News Store.

THE ALDINE, while issued with all the reg-uearity, has none of the temporary or timely in-terest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light and grace-ful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and and general Blacksmithing, at the old stand and general Blacksmithing, at the old stand as of a similar class, THE ALDINE is a unique of original conception—alone and unapproach—absolutely without competition in price or practer. The possessor of a complete volume and duplicate the quantity of fine paper and gravings in any other shape or number of volumes, and for the standard of the standard o

Art Department, 1874.

The illustrations of THE ALDINE have won a world-wide reputation, and in the art centres of Europe it is an admitted fact that its wood atte are examples of the highest perfection over attained. The common prejudice in favor of 'steel plates,' is rapidly yielding to a more educated and discriminating taste which recognizes the advantage of superior artistic quality with greater facility of production. The woodcrists of THE ALDINE possessa all the delicacy and elaborate finish of the most costly steel plate, while they afford a better rendering of the artist's orafinal. pairs, while they anords better reducting of the artist's original.

To fully realize the wenderful work which THE ALDINE is doing for the cause of art culture is accepted, it is only necessary to consider the cost to the people of any other decent representations of the productions of great painters. In addition to designs by members of the National Academy, and other noted American artists, THE ALDINE will reproduce examples of the best foreign masters, selected with a view to the bighest artistic success and greatest general interest. Thus the subscriber to THE ALDINE will, at a triding cost, only in his own home the pleasures and refining influences of true art. The quarterly intred plates for 1874 will be by Those Moran and J. D. Woodward.

The Christmas issue for 1874 will contain spectal designs for appropriate to the season by our

Premiums for 1874, Every subscriber to THE ALDINE for the year 1874 will receive a pair of chromes. The original pictures were painted in oil for the publishers of THE ALDINE, by Thomas Moran, whose great Colorado picture was purchased by Congress for ten thousand dollars. The subjects were chosen to represent "The East" and "The Wost." One is a view in The White Mountains. New Hampshire; the other gives The Cliffs of Green River, Wyoming Territory. The difference in the nature of the scenes themselves is a pleasing contrast, and affords a good display of the artist's scope and coloring. The chromos are each worked from thirry distinct plates, and are in size (fix16) and appearance exact frequinities of the originals. The presentation of a worthy example of America's greatest landscape painter to the subscribers of THE ALDINE was a bold but peculiarly happy idea, and its successful realisation is attented by the following testimonial, over the signature of Mr. Moran himself. himself.

NEWARK, N. J., Sept. 25, 1873.

Mosers. James Surrow & Co.

Gentlemen,—I am delighted with the proofs in color of your chromos. They are wonderfully successful representations by mechanical process of the oniginal paintings.

Very respectfully,

(Signed.)

Thos. Moran.

(Signed,)

These chromes are in every sense American.—
They are by an original American process, with
material of American manufacture, from designs
of American scenery by an American painter,
and presented to subscribers to the first successful American Art Journal. If no better because
of all this, they will certainly possess an interest
no foreign production can inspire, and neither
are they any worse if by reason of peculiar facilities of production they cost the publishers only
a triffe, while squad in every respect to other chromes
that are sold singly for double the subscription price
of TABE ALDIAM. Persons of tasts will prize
these pictures for themselves—not for the price
they did or did not cost, and will appreciate the
enterprise that renders their distribution possible.

If any subscriber indicate a preference for a gure subject, the publishers will send "Thoughts Home," a new and beautiful chromo, 14730 ches, representing a little Italian exits whose saking eyes betray the longings of his heart.

TERMS. per annum in advance, with Oil Chromos free. For 50 Cents extra, the chromos will be sent, mounted, varnished, and

will be sent, mounted, varnished, and prepaid by mail.

#### ALDINE will, hereafter, be obtainable by by subscription. There will be no reduced club raise; cash for subscriptions must be sent also publishers direct, or handed to the local raiser, without responsibility to the publishers, cept in cases where the certificate given, bearing the for-simile signature of James Sutton & Co.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicina properties of which are extracted therefrom without the use of Alcohol.
